

## **KECHARA INMOTION**

Established in 2007 as an independent multi-media company led by Han Siew Fong, Kechara InMotion is actively engaged in film and video production, photography, corporate video, events coverage, editing, rebranding, and artist networking.

In addition to the above, Kechara InMotion is the media department of Kechara. Hence, our most valuable role is to document the immaculate Dharma teachings of His Eminence Tsem Tulku Rinpoche, Kechara's enigmatic spiritual guide and the inspiration for our department's existence.

As we bring Dharma to the world, we also believe in bringing together artists from various backgrounds and disciplines in the pursuit of creative projects that are socially or spiritually relevant, as well as undertaking assignments that are purely commercial.

Thus our work with Kechara does not detract from our role as a commercial entity. We offer a range of services for the media-savvy customer looking to create a moving work of art, or learn and enhance their skills. These include:

- Filming
- Event Coverage
- Editing
- Subtitling
- Photography
- Courses
- DVD Production
